

MATERIAL SAFETY DATA SHEET

AUSTRALIA:
Tri Nature Pty Ltd. ACN 001 784 327
Sandpiper Close Kooragang, NSW
Phone: (02) 4928 2199 Fax: (02) 4928 2405

Non hazardous according to the criteria of Worksafe Australia.

I IDENTIFICATION

Product Name: **CHAMOMILE ORGANIC CONCENTRATE**

Other Names: None.

Product Code: None.

UN No: None allocated Hazchem Code: None allocated

Dangerous Goods Class: None allocated

Sub Risk Class: None allocated

Packaging Group: None allocated

Poison Schedule: None allocated

Chemical Family: Water solution of ingredients.

Uses: Manual dishwashing liquid concentrate.

Physical Appearance & Properties

Appearance & Odour: Clear, light amber viscous liquid with herbal/lime fragrance.

Melting/softening point: Approximately 0°C.

Boiling point and vapour pressure: Approximately 100°C at 100kPa.

Volatile materials: Water component.

Flashpoint: Not flammable.

Specific gravity: 1.00

Solubility in water: Completely soluble.

Corrosiveness: Not corrosive.

Ingredients

Chemical Entity	CAS No	Worksafe Exposure Limits		
		Proportion, %	TWA, mg/m ³	STEL, mg/m ³
Proprietary blend of surfactants	secret	30-40	not set	not set
Other non hazardous ingredients	secret	< 5	not set	not set
Water	7732-18-5	to 100	not set	not set

This is a commercial product whose exact ratio of components may vary. Trace quantities of impurities are also likely.

II. HEALTH HAZARD DATA

Health Effects:

No specific data is available for the product for chronic exposure symptoms. The ingredients are not listed as carcinogenic in Worksafe's document "Exposure Standards for Atmospheric Contaminants in the Occupational Environment" (May 1995).

Acute Effects:

- Swallowed: Data suggests that this product should present no significant problems to typical persons if used as intended.
- Eye: This product may be mildly irritating to eyes. However, it is unlikely to cause any more than mild transient discomfort. It is also unlikely to cause any lasting effects.
- Skin: Unlikely to cause any irritation.
- Inhalation: Data indicates that this product is non-irritating if inhaled.

First Aid:

If poisoning occurs, contact a Doctor or Poisons Information Centre. Phone 13 1126 from anywhere in Australia.

- Swallowed If swallowed, do NOT induce vomiting. Give a glass of water.
- Eyes: If product gets in eyes, wash material from them with running water. If they begin watering or reddening, take special care in washing thoroughly.
- Skin: If product gets on skin thoroughly wash contacted areas. No further measures should normally be required.
- Inhalation: No problems are indicated.
- Advice to Doctor: Treat symptomatically. Note the nature of this product.

III. PRECAUTIONS FOR USE

Risk Phrases are: R36. Irritating to eyes

Exposure Standards: The nature of this product makes it unlikely that any normal exposure level will cause ill effects

Engineering Controls: The nature of this product makes it unlikely that any engineering controls will be necessary when working with this product.

Personal Protection:

- Respiratory Protection: Not considered necessary during normal use of this product
- Protective Gloves: Regular or continuous contact with the skin may cause irritation. Protective gloves should be worn in these situations.
- Respiratory Protection: Not required.
- Protective Gloves: Not required.
- Eye Protection: Protective eyewear is not normally necessary when using this product.
- Clothing: This product is essentially safe to use without special protective clothing.
- Safety Boots: This product is essentially safe to use without special protective footwear.

IV. SAFE HANDLING INFORMATION

Safety Phrases are: S25. Avoid contact with eyes.

Storage & Transport

No special storage and transport requirements. This product has no UN classification. Not a Scheduled Poison. Containers should be kept closed in order to minimise contamination. Keep from extreme heat and open flames, and make sure that the product does not come into contact with substances listed under "Materials to avoid" below.

Spills & Disposals

Minor spills do not normally need any special clean up measures. In the event of a major spill, prevent spillage from entering drains or water courses. As a minimum, wear overalls, goggles and gloves. Stop leak if possible to do so, and contain spill. Absorb onto sand, vermiculite or other suitable absorbent material. Sweep up and shovel or collect recoverable product into labeled containers for recycling or salvage. Can be slippery on floors, especially when wet. Recycle containers wherever possible. After spills, wash area preventing runoff from entering drains. If a significant quantity of material enters drains, advise emergency services. This material may be suitable for approved landfill. Dispose of only in accord with all regulations.

Fire & Explosion Hazard

There is no risk of an explosion from this product under normal circumstances if it is involved in a fire.

Flashpoint:

Not Flammable

Flammability limits:

Not applicable. This product does not burn.

Extinguishing Media:

This product does not burn – use extinguishing media suited to the materials that are burning

Special Fire Fighting procedures:

When fighting fires involving significant quantities of this product, wear safety boots, non-flammable overalls, gloves, hat and goggles and respirator. All skin areas should be covered.

Unusual Fire & Explosion Hazards:

This product is unlikely to decompose at temperatures normally achieved in a fire.

Stability:

This product is unlikely to spontaneously decompose.

Polymerisation:

This product is unlikely to spontaneously polymerise.

Decomposition Products:

Carbon dioxide, and if combustion is incomplete, carbon monoxide and smoke. Nitrogen, and under some circumstances, oxides of nitrogen. Water.

Materials to avoid:

Acids.

V. OTHER INFORMATION

This MSDS is prepared in accord with the Worksafe Australia document "National Code of Practice for the Preparation of Material Safety Data Sheets", 1994.
