

SANITISER

An effective, chlorine-free sanitiser for baby's bottles, teats and associated utensils.

Unlike chlorine based products Little One Sanitiser will not form harmful by-products, as it decomposes to water and oxygen only.

- The 'must-have' item of modern parents. It can be used for an extraordinary range of tasks including:
 - sanitising your child's bottles, teats and utensils.
 - children's toy sanitising.
 - sanitising drink bottles / sports bottles.
 - sanitising cosmetic tools such as hair combs, tweezers etc.
 - freshening cut flowers.
- A truly versatile and innovative improvement on market equivalents.

FEATURES	BENEFITS
Chlorine-free formula	<ol style="list-style-type: none"> 1. Will not form harmful by-products 2. Active hydrogen peroxide decomposes to water and oxygen only 3. Will not produce obnoxious tastes or odours 4. Safe to use in septic or multi-stage treatment systems

Safe	<ol style="list-style-type: none"> 1. Price-Harmless on all surface - will not bleach or damage

DIRECTIONS FOR USE

Sanitising baby bottles, teats, utensils, drink bottles etc: Dilute 10mL per 1Lt water. Soak for a minimum of 60min. Solution remains active for up to 24 hours.

Children's toys: (To soak) Dilute 10mL per 1Lt water. Soak for a minimum of 60 mins. Ensure that toys are thoroughly dried (inside) to eliminate the potential for bacteria to grow inside a toy.

(To wipe) Dilute 10mL per 1Lt water. Use clean cloth/sponge to dip in solution and wipe over exterior of toys. Ensure that the toy is allowed to dry thoroughly.

Sanitising cosmetic tools such as hair combs, tweezers etc: Dilute 100mL with 500mL water. Soak for a minimum of 60mins. Solution remains active for up to 24 hours.

Freshening cut flowers: Add 2mL to a vase of water. Change solution every 3-4 days.

INGREDIENTS

Activated Hydrogen Peroxide 6%
